The following tires below the 200 treadwear limit are permitted in 2015 onwards:

Background:

Toyo and Yokohama have supported CASC-OR autoslalom with sponsorship funds and contingency winnings for competitors. While a competitive choice, they have not shown performance or street manners inconsistent with the intent of the Street & Street Touring classes. This bulletin will maintain the relationship with our sponsors and provide competitors the chance to continue to compete for contingency winnings from 2015 onwards.
